VITROGLAZE

UN 1170 HAZCHEM CODE 2YE PACKAGING GROUP II

Clean glass areas using Vitroglaze pre-cleaner.

Only apply Vitroglaze to a clean and dry glass surface. Once Vitroglaze is applied, the treated surface should only ever be rinsed with water or cleaned using Vitroclean or a PH neutral cleaner. Using any other product will damage the treated surface.

DIRECTIONS:

After cleaning first with the Vitroglaze Pre-Cleaner, apply Vitroglaze evenly to the glass surface in small sections around 1m² at a time. Wipe over the whole area immediately with a clean cloth. Continue this process until all the glass surfaces have been treated.

To leave a sparkling finish, once all areas have been treated, using a clean and dry microfiber cloth, wipe vigorously over the entire glass area.

To treat glass that is not brand new, clean thoroughly using your preferred method, dry the surface well, then start from the first step above.

SAFETY: Flammable. Keep away from sources of ignition – No Smoking. Avoid contact with eyes and skin. Wear protective clothing, gloves and eye protection.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes. If skin contact occurs, remove contaminated clothing and rinse for 15 minutes with soap and water. Ensure clothing is washed thoroughly before using again.
